## In Class We Are...

### Reading

Students are participating in Daily 5 rotations. They will also continue their informational reading and writing to identify text features as well as main idea and key details in a chosen text.

**\*Students should continue to use their close reading bookmark for reading homework packets. A digital copy is available on my website if needed\***

Students are continuing working with multiplication and division! Students will work to solve multi step word problems using all four operations as well as reading different types of graphs (pictograph, bar graph, line graph).

*Please study and review facts with your student. Even if they have not memorized them yet, reviewing strategies they can use to figure out problems is extremely helpful.*

### Math

### Science/ Social Studies
